PART I: INTRODUCTION & BACKGROUND
1. **PREAMBLE**

The naming and renaming of streets and other public places is recognized as being an integral part of place making. This includes, but is not limited to the creation of places that residents and users can relate to and take pride in.

The naming of streets and public places after memorable events is a way of etching the country’s history, both pleasant and unpleasant in people’s memory. The allocation of names of people is recognized as being a way of honouring certain individuals for their contribution to the development of the Country, and this municipality, and should therefore be done with careful consideration.

2. **POLICY STATEMENT**

The municipality should designate the names of public streets, public places, natural areas, artefacts and Council-owned buildings & facilities (hereafter referred to as *features*) by resolution. In all cases, the municipality shall have the prerogative of accepting or rejecting any proposal received. Names must comply with the general criteria and rules as set out in this policy.

3. **REASONS FOR THE POLICY**

3.1 The naming and numbering of streets in a timeous and effective manner is important for the following reasons:

- the completion of the registration of ownership in new subdivisions;
- the provision of municipal services;
- the billing for rates and municipal services used;
- the provision of emergency services;
- postal delivery;
- policing;
- data integrity; and
- to ensure that property owners can be contacted for public participation purposes.

Any delay in the provision of street naming and numbering can cause inconvenience with regard to these aspects, a loss in revenue to Council and delays in property transfers.

3.2 The renaming, in certain instances, of streets, public places, natural areas, artefacts and Council-owned buildings & facilities are important due to the following reasons:

- Names create a ‘sense of place’;
- Names are place markers and focal points through symbolism, association and remembrance;
- Names are the beginnings and ends of journeys or destinations;
- Names have powerful positive or negative meanings for people; and
- Names provide opportunities to promote community harmony or perpetuate hurt and division.

3.3 Currently there is no standard consistent process dealing with the areas covered in this policy. There is also no clarity on the distribution of responsibility among the different functional areas.

4. **OBJECTS OF THE POLICY**

The objectives of the policy are to establish a process that:

a) seeks to inform and influence the types of names that are chosen for various features as well as spell out the procedures that should be followed in the naming and renaming processes;
This policy covers two areas, the naming of unnamed features and the renaming of currently named (or unnamed in certain instances) features.

5. SCOPE

The policy replaces the current procedures previously followed by the municipality and shall be applicable to the entire municipal area.

The general term "street" used in this policy, includes all classes of streets which serve as a public right-of-way, the naming of which, is the responsibility of the relevant authority.

All decisions made in terms of this policy at any specific time shall be in accordance with the applicable delegation of powers relating to the naming and renaming of streets (including numbering), public places (including numbering), natural areas, artefacts and Council-owned buildings & facilities as approved by the Council.

6. LEGAL FRAMEWORK

The municipality has jurisdiction over the naming of features that are under the control of the local authority. With regards to the naming of private features, the policy will guide this, in as far as these names comply with the naming criteria and rules, as indicated below.

The naming and renaming (“geographical names”) of features falling within the “national competence” to do so, is subject to approval by the National Minister (responsible for arts and culture) and should be undertaken in terms of the provisions of the National Geographical Names Council Act (Act 118 of 1998) and the Regulations thereof as well as the “Handbook on Geographical Names” (hereinafter referred to as the Handbook).

To determine whether the “competence” to allocate names to features falls under another sphere of government (Provincial or National) the Regulations, Handbook and the relevant department (Provincial and National) should be consulted. The naming of features falling under Provincial and National “competence” is therefore excluded from this policy.

The municipality should however, continue to function in accordance with the provisions of the Act (including Regulations and policies) in the allocation of geographical names that fall within the municipal area.

In instances where the naming or renaming process of the feature is the responsibility of another sphere of government or is owned by another sphere of government, then permission of that sphere of government to proceed with the naming or renaming process, should be sought in writing, prior to the process being commenced with. The said authority should also indicate if there are any procedures that the municipality should comply with in managing the process.
