**CERTIFICATE OF INDEPENDENT BID DETERMINATION**

1. This Municipal Bidding Document (MBD) must form part of all bids<sup>1</sup> invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
3. Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
  - a. take all reasonable steps to prevent such abuse;
  - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
  - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
4. This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
5. In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:-

<sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

##### **4.1. Planning**

This step is the most important procedure in conducting a successful stock count.

Planning involves establishing priorities, assigning responsibilities, setting up a problem resolving mechanism (perhaps a chain of command), determining the inventory method, and coordinating all activities. The Municipality will determine deadlines for completion of certain target dates.

The ISC will oversee the process to ensure that planning is carried out and that counters are aware of procedures and that laid down procedures are followed. The ISC will be responsible for co-ordination and completion of the physical count. All issues should be directed to the ISC for resolution.

Planning will include allocation of areas to be counted to individuals or teams of counters in order that a systematic approach is taken to ensure a full count.

Before physical count, the ISC will arrange a meeting with all counters in order to inform them (verbally and with written instructions) of stocktaking procedures which will be performed on the day of the stock count. Any uncertainties or questions will be addressed to ensure that they know what is required including follow up procedures for resolving variances. The Municipality will determine the size of counting teams and data capturers required to conduct the count.

Care should be taken to ensure that all stock to be counted is identified prior to the commencement of the physical count. This may include:

- a) Cleaning up the store area to ensure redundant stock and damaged stock returned to the store is disposed of and taken out of the inventory system.
- b) Ensuring that the receiving area is isolated from the store area and that any goods received prior to the count is identified and excluded from the count; and

On the day before the physical count, all stock will be checked to ensure that goods received are entered into the financial system prior to the commencement of the count.

On the morning of the physical count, the receiving area will be quarantined to ensure that any stock received is excluded from the count.

Staff conducting the physical stock count will be independent delegated persons not involved in the day-to-day activities of the Municipal Stores. The Municipal Stores officials however will be present during the count and will be able to provide assistance to the ISC in cases of any uncertainty or clarity.

The second count will be performed by a different team than the one which originally counted the stock during the first count.
